

MR WILFRED CHAU
Associate Consultant

Wilfred is a multi-talented HR professional in training, human resources (& organization development) and administration field with over 13 years' experience. His wide range of experience working in various industries, such as manufacturing, trading and servicing, construction and non-government organization equipped him good experience in crisis management.

Wilfred has solid foundation in planning and implementing organizational change programmes. He is particularly strong at designing and controlling human resources, facilitating training courses, enhancing staff relations and improving quality at work.

Wilfred received his master degree with Warwick University, UK, major in psychology, and holds various key positions in different private organizations. With solid HR experience for more than 15 years, he is now working as the Human Resources Manager of a well established local construction firm with more than 1,200 staff. He overlooks all the HR functions as well as the training and development.

Wilfred also actively involved in part time lecturing at various local universities such as SCOPE (CityU), SPACE (HKU) and OUHK. His rich experience in developing corporate strategy, mastering the compensation and benefits systems, together with his excellent facilitation skills would for sure bring to our clients a lot of real life case examples for sharing and discussions. Wilfred holds a master degree with University of Warwick, UK.
